Choice #1: THE ROOM MAKERS®

- The comfort of a real box spring and standard sized mattress.
- Design can accommodate all standard bed sizes, including king.
- Best choice for heavier face panels and mattress weights.
- May be floor or wall mounted.
- Pillows can be left on the bed when folded.
- 5-year warranty on frame and mechanism.

**Headboard** is ¾” (2cm) Particle board with a 24oz. Naugahyde vinyl covering - available in six standard colors.

**Padboard** is ½” (1.3cm) foam on ½” (1.3cm) A-C plywood slanted for reading in bed (like a prop-up pillow). Pillow Storage: Padboard automatically folds over pillows when bed is closed.

**Rubber corner “Bumpers.”** Chrome or Brass Sleeves.

**Compression “Power Packs”**
The coil is compressed when the bed is lowered to the floor and expands back to its original position when the bed is stored in the up position. Using this technology, the coil is never fatigued by stretching. Bed raises & lowers with just 8 lbs. (3.6kg) of fingertip pressure.

**SICO’s Box spring & premier mattress** offer sleeping comfort of a conventional bed. Bedding is custom made to SICO’s exacting specifications by Restonic.

**Leg Support** Doubles as handles to pull bed down and as leg support.

**The box spring** is attached to the bed frame with screws. The mattress is secured to the boxspring with a Velcro mattress strap - permanently positioned.

The SICO Amesbury Wallbed comes in a traditional styled cabinet of oak or maple wood veneer and an applied wood moulding.

This custom example features matched face and doors in Sapele (Cherry, Maple, Oak, or Mahogany also available). Handles and black lacquered trim complete the illusion of faux drawers and doors on the face.
